

# Our Goal is Lifelong Recovery...PERIOD!

## WORLD-CLASS EFFECTIVE TREATMENT

Located in scenic and rural Flagler County, Florida, about 20 miles north of Daytona Beach, the Vince Carter Sanctuary is a brand new - CARF Accredited - Licensed Level II Adult Substance Abuse & Co-occurring Residential Treatment Provider.

Though it's a new facility, the parent organization, Stewart-Marchman-Act (SMA) Behavioral Healthcare, has many decades of agency experience in the delivery of substance abuse and mental health care.

While primarily a 90-Day program, it can be tailored to suit individual needs. Foundationally 12-Step based, also incorporated are Motivational Enhancement Therapy (MET), Cognitive Behavioral Therapies and Experiential Activities Therapies utilized by graduate level clinicians.

Also on staff is a fulltime Physician who is a board certified Addictionologist, an ARNP, a Licensed Family Therapist, an Activities Therapist, two Equine Therapists, Client Advocates, a Coordinator

for Intake - Interventions & Aftercare, as well as Certified Addiction Professionals (CAPs) and 24-hour nursing in its on-site 16-Bed Licensed Medical Detox unit. It also boasts an ACE Certified Executive Chef direct from the White House.

Vince Carter, perennial NBA All-Star, 1999 NBA "Rookie of the Year," winner of the 2000 NBA Slam Dunk Contest, and now #15 of the Orlando Magic, has seen up close what substance abuse can do to friends, families, and entire communities. This is the reason he contributed \$1.6 million and attached his name to this beautiful new facility.

One of the highlights offered is a 20 acre horse ranch providing Equine Assisted Therapy, a ropes course, private lake and meeting cabin, hiking and biking trails, as well as a labyrinth. Another unique feature is the availability for clients to swim with dolphins at nearby Marineland®. Also on-site is the University of Florida McKnight Brain Institute (UF-MBI) Addiction Research Center under the direction of Dr. Mark Gold.

The Vince Carter Sanctuary offers one of the most comprehensive Aftercare Programs in the industry, including up to two weeks of free "Early Intervention - Relapse Prevention" and "Refresher Treatment" for those who've completed the full 90-Day Program. Family Therapy is also a highly valued component, including the Residential Family Program that's offered. Though it is a fee-for-service facility, treatment financing is available through multiple sources.

**If you know someone in need of treatment, this is the NEW place to go!**
